Terrorism and Drones

Gary Dalton

Version 1.0, 23 December 2016

Table of Contents

A listing of sites and sources covering terrorism and military drones. Even though the main effort is to list data sites and visualizations, the nature of the subject matter will often include sites of opinion.

View on GitHub

Introduction

Validated data sources will, by necessity, not cover the current year.

Terrorism

Military Ops

Military Ops includes a wide variety of data and analysis on current and past operations. Operations is used instead of wars due to the increasing usage of forces in undeclared warfare. This is especially true in regards to use of drones and special operations forces.
